From the JetBlue Master Executive Council:

The MEC wants you to know that we fully support the right of our JetBlue Flight Attendants to organize under the Transport Workers Union of America, AFL-CIO. Union representation will allow them to better their lives and those of their families. Our Flight Attendants are attempting to organize to gain a real voice in their workplace. The TWU has filed a representation application with the National Mediation Board. We support the efforts of the Flight Attendants to gain the benefits of union representation to further their safety, security and professionalism, all of which we believe will contribute to the success of JetBlue. We wish them the best of luck on the close of election on April 17, 2018.

On behalf of the entire JetBlue Master Executive Council,

Capt. Patrick Walsh
Chairman

Capt. Dario Miranda
Vice Chairman

Capt. Wes Clapper
Secretary-Treasurer
